Geology grad demand nets program change

By Steven Penn

After four years of effort, a core of professors in the UNO geography-geology department have convinced colleagues, the administration and the Board of Regents that UNO should offer an undergraduate degree in geology.

What sold them was the "high employment in the field," according to John Shroder, associate professor of geography-geology.

Shroder started the current geography-geology department at UNO in 1969 after returning from field work in Africa.

Before he came to the campus, some geology-related courses were taught by the physics department.

Even then, Shroder said, the idea of a combined geography-geology department was not generally accepted. For a time, he said, there were two geology courses taught at UNO because some physics professors still wanted to teach the course.

But Shroder argued that enrollment at the university was increasing and that a "true university" should have a geography-geology department.

In 1977, Shroder and his UNO

colleagues, William Gosnold and George Engelmann, set about the task of establishing geology as a separate major.

There was a "problem of competition from geography at UNO," said Gosnold. After convincing John Newton, dean of the College of Arts and Sciences, of the program's advantages, they approached the administration and found support for the idea.

The regents finally approved the program this year after listening to the arguments presented by Shroder and his colleagues.

Engelmann, assistant professor in geography-geology, said geology graduates will be able to assume entry level positions in several areas with a degree from UNO.

"We turn out nationally competitive students in large numbers already," said Shroder. "They can all hold their own."

Oil and petroleum companies are the largest employers of geology graduates, according to Engelmann. He said that government, mineral exploration and construction companies are also large employers of geology graduates.

Shroder said geology graduates can

Langford says HSO director 'barking up wrong tree'

Senate vetoes monies for 'Deaf Awareness Day'

By Joseph Brennan

By a vote of 12-5, the Student Senate Thursday night rejected a \$143 budget request by the Handicapped Students Organization (HSO) for a "Deaf Awareness Day" scheduled to be held at UNO in April.

The budget request was originally \$173 and was tabled at the last Student Senate meeting Nov. 19.

Sen. David Montag, chairman of the budget committee, requested that the proposal be removed from the table so senators could consider it again and also hear arguments from HSO Director Jim McMahon.

The original request included \$120 for the use of interpreters, \$25 for publishing, stationery, etc., \$18 for postage, and \$10 for supplies.

McMahon said the expense for interpreters could be reduced to \$90, however, based upon what persons at the UNO special education department had told him about rates charged by interpreters for the deaf. He added that the rates would be between \$7.50 and \$15 an hour.

Volunteer

The proposed "Deaf Awareness Day" is to be sponsored by HSO and the special education department.

At the Nov. 19 senate meeting, Sen. Terri Barna-Pitzl asked McMahon to determine if any students or faculty in the special education department would volunteer their time as interpreters. McMahon told the senate Thursday night that the department doesn't "have anyone skilled enough as a certified interpreter."

Several senators argued that since the program is not scheduled to be held until April, there is plenty of time to consider the proposal.

Graduate Sen. Jacqueline McGlade said there "seems to be a problem with how much (money) will be

spent," adding that the senate needs to see "a written, detailed report."

Barna-Pitzl suggested that McMahon prepare an itemized report within a week.

McMahon said the "other side of the coin" was getting the request approved so that both HSO and the special education department have as much advance time as possible to work on the program.

'Better eye'

McGlade said the request should be sent directly to the budget committee. If the budget committee approves the request, she said, the executive committee of the senate could act on the measure in lieu of the full senate. McGlade said this procedure would ensure that a "cooler head and a better eye" toward expenditures would prevail.

Barna-Pitzl agreed with McGlade that if it can be determined that HSO needs the money quickly, the executive committee would probably approve it. The next meeting of the full senate will not be held until Jan. 14.

When asked if outside agencies which might provide money for the interpreters had been contacted, McMahon replied, "I don't know the contacts special ed has made. My initial answer is I don't think there's any pot of gold out there."

Student President/Regent Florene Langford told McMahon that he was "barking up the wrong tree" by coming directly to the senate with the request. She said "Deaf Awareness Day" is a program. "We (SG-UNO) are not the programming organization. You should be contacting SPO (Student Programming Organization)."

Reconsider funding

McMahon said SPO Director Owen Rosenberg had told him to go directly to SG-UNO with the request. He

said he had not been encouraged with one SPO suggestion, which was to have a musical band perform on "Deaf Awareness Day." "It didn't make a good deal of sense to me," said McMahon.

Rosenberg was unavailable for comment.

Montag said the budget committee was to have met last Friday and thus had not acted upon HSO's request. He added that he didn't think the request could be itemized more precisely.

After voting to deny the request, the senate passed a resolution requesting Langford and Speaker Frank Rowley to write a memorandum to Rosenberg requesting that SPO reconsider allocating funds for the program.

In other action:

— Langford said she was "guesstimating" that SG-UNO had sold 130 1982 calendars. The calendars are being sold to pay off a legal debt. She said SG-UNO must sell 227 calendars to break even. The senate decided to place an order for more calendars than have actually been sold. McMahon said HSO had sold 70 calendars but that most purchasers hadn't paid in advance. Barna-Pitzl said it was more likely people would buy the calendars if they could receive them immediately. Rowley said unsold calendars could be returned.

— CAO Sandra Winschief announced that Rosenberg was resigning his position as of Dec. 24 because he will not be attending school next semester.

— The senate listened to Sen. Eric Whitner deliver a report about UNO-NAACP's recent visit to Langston University in Oklahoma City, Okla. The purpose of the trip was to attend the "Solidarity Day" event, which was concerned with the state of black colleges in the U.S. Whitner said workshops demonstrated that black col-
(continued on page 2)

Drug-like reactions make home brews dangerous

Herbs may cause dangerous side effects or death

A Wisconsin woman who drank a single cup of tea prepared from a half teaspoon of powdered polk root suffered severe cramps, bloody vomiting and diarrhea, low blood pressure and abnormally fast heart rhythm. She required emergency resuscitation and was hospitalized.

Three young women in Pennsylvania and three people in New York developed abdominal cramps and profuse diarrhea after drinking tea made with senna leaves and buckthorn bark. They had all been unaware of the strong laxative effect of these herbs.

An elderly couple in Washington state decided to prepare tea from wild comfrey. Unfortunately, they mistakenly picked foxglove, the source of the powerful heart stimulant digitalis. It disturbed their heart rhythms so severely that both were dead within 24 hours.

Three young women in Colorado were hospitalized after attempting to induce abortions with pennyroyal oil. Two recovered, but the one who had taken the largest dose suffered fatal liver damage.

Herbs and herbal teas are enjoying a revival in recent years, with sales estimated at more than \$70 million annually. While most people find them to be a pleasant, refreshing change from coffee and ordinary tea, some herbal products contain powerful chemicals that can affect their mind and body, according to the Food and Drug Administration's Consumer Affairs News. Ignorance or misuse of herbs sometimes leads to unpleasant consequences, and in a few cases, to tragedy.

Drug-like reactions

The popularity of herbal teas may be due in part to increased concern about the effects of caffeine and other chemicals in coffee and standard tea. Many people assume that herbs are a safe alternative because they are "natural" (but then, so are coffee and tea). Herbs have been used for thousands of years "with impunity from toxic reactions," said the Herb Trade Association. However, it is possible that some incidents of herb-related death or injury went unreported.

"People feel that because there are no reports of toxicity, that makes an herb safe," said Sanford Miller, director of the FDA's Bureau of Foods.

Very little is known about the chemical components of most herbs, and especially about the effect of those chemicals on humans. Someone who is drinking herb tea in order to avoid the jitters caused by caffeine may be

consuming substances with even more potent effects.

Nearly 400 herbs and spices are commercially available for brewing into tea. While many appear to be innocuous, a few contain active ingredients that could cause harmful effects or unexpected drug-like reactions. A number of herbs that are smoked or used in tea have euphoric, stimulant or hallucinogenic effects. Senna leaves, buckthorn bark, dock roots and aloe leaves are strong laxatives, and several other herbs act as diuretics.

Chamomile has caused dangerous allergic reactions in people allergic to ragweed, a botanical cousin

Budget request is denied . . .

(continued from page 1)

leges offer students "a sense of history and identity". The workshops also dealt with specific issues such as lobbying, financial aid cuts, and black students' rights.

— Rowley said a meeting was to be held Dec. 8 about long-range budgeting by HSO. "All agencies (of SG-UNO) will be going through similar procedures" in the future, he said.

— The senate unanimously approved the selection of Barna-Pitzl and Whitner to Vice Chancellor Richard Hoover's "feasibility task force" on child care at UNO.

— Sens. McGlade, Montag, and Jon Taute agreed to assist Langford in formulating by-laws for the UNO chapter of the Nebraska State Student Association (NSSA). McMahon also agreed to work on the by-laws.

— The senate approved the nominations of Ann O'Connor and Roger McCardle as student members of the Publications Board. Winschief will send the names to Hoover for approval.

— Winschief announced that UNO student Shekar Padath has been elected regional representative of the National Association of International Students. She also said that the organization's 1984 convention will be held at UNO.

— The senate approved a fund raising petition by BLAC (Black Liberators for Action on Campus). BLAC will hold a raffle Dec. 21, with half of the proceeds to be donated to the Ernie Chambers scholarship and half as profit.

— Barna-Pitzl urged senators to encourage students

Sassafras root bark, calamus and coumarin contain ingredients proven to cause cancer in laboratory animals. And several herbal products are poisonous, such as lobelia, mandrake, mistletoe and poke root (although the young green shoots of the poke plant are usually edible).

"Nature is still mankind's greatest chemist" wrote biologist Walter Lewis in Medical Botany: Plants Affecting Man's Health, "and many compounds that remain undiscovered in plants are beyond the imagination of even our best scientists." Campus Digest News Service

to fill out the child care survey being circulated by the Women's Resource Center. Langford said that most of the response to the survey had come from faculty and staff. McGlade suggested that senators find out if interested faculty members would distribute the surveys in the classroom. "I distributed them in my freshman history survey courses," she said.

— The senate approved a fund raising event planned by UNO-NAACP Dec. 12. Whitner said the event is a "study-a-thon." He said its purpose was "to stress and promote academic excellence."

— Treasurer Ray Mandery told the senate that SG-UNO has \$223 in a checking account at a local bank. Langford said there is also \$400 in savings at the same bank. She said Hoover had to approve what, if anything, SG-UNO can do with the money, since it was apparently set aside for the "controversial speakers" program in 1978.

Plus grading approved

Chancellor Del Weber has approved plus grading for UNO students beginning next semester.

Weber said he approved a recommendation by the Faculty Senate to implement the new system, which abandons the A-B-C-D-F grading. Starting next semester, UNO instructors will have the option of giving a student plus grades. For example, a student whose work was actually B-plus quality will for the first time receive a B-plus. Presently, the best grade that a student could receive is B, or a 3.0 grade point average.

The new grading system will not include a provision for those students who perform A-plus work. Those students will continue to receive grades of A, or 4.0, Weber said.

odds and ends

Money controversies

Felony theft and embezzlement charges have been filed against a former student government president at the University of Colorado-Colorado Springs. Robin Thoman was suspended from office in August by the Student Senate on charges of mishandling funds. Another former officer has since testified to the local district attorney that Thoman threatened to fire him if he didn't kick back part of his salary and that Thoman falsified records to use student government money for personal expenses. AND . . .

Another money controversy has hit the University of Colorado-Colorado Springs student government. Check-approving authority has been temporarily taken away from student officers there pending an internal audit of student funds. One student financial officer resigned just prior to the audit, which will look at the use of a special student fee fund set up to provide photo identification cards.

Hazing, drinking

A male pep organization at the University of Oklahoma was suspended indefinitely and prohibited from participating in football games after a university board found its members guilty of hazing and other student code violations. The OU Ruf-Neks, who claim to be the oldest male pep group in the country, can no longer hold meetings or pledgeships on campus. AND . . .

The death of a University of Wisconsin-Platteville fraternity president has focused attention on alcohol abuse at the school. After an evening of drinking, Psi Sigma Epsilon President Billy Benes mysteriously fell from the roof of the frat house, where he had apparently been sleeping. Officials don't know if Benes was intoxicated or if the fall was a freak accident.

Bragging cheater

A University of Arizona senior claimed to have gotten through school by buying research papers, paying students to take tests for him and cheating off other students. After advertising for a student to take an accounting course for him, the

cheater bragged of his exploits to the student newspaper. University officials weren't impressed. After discovering his identity on their own, they said some of his claims were exaggerated and others would be investigated.

Instant pets

A Rent-A-Fish service offers instant pets for University of Illinois students on the Champaign-Urbana campus. For \$30 a semester, a new outfit will set up a five-gallon tank, water, gravel, lights and fish. The latter are guaranteed to live for a month and can be replaced after that for a reduced fee. A 15-gallon set-up costs \$50.

Frog scouts

At least 200 Western Kentucky University students want to be frog scouts, even though the club has no activities, membership pins or stated purpose. Frog Scouts of America was formed by a WKU student who derived her personal nickname, Frog, from her unusual waddle-like walk. From one sign-up sheet, offering companionship for "depressed, lonely or ugly" students, Frog Scouts' membership swelled overnight. Club members still plan no activities, said its founder, other than imitating her walk when crossing campus.

Violent matches

Violence is a growing part of relationships between college students, according to a survey by a University of Arizona sociologist. Mary Reige Laner interviewed students at colleges in Oregon, Arizona, and Minnesota and found about 60 percent had experienced some form of physical violence during dating relationships.

Nearly 30 percent said they expected slapping, hitting or scratching in anger in the course of serious relationships, and over half of those who had experienced this kind of violence said that they still had a relationship with the person they had abused or were abused by. Thirty-seven percent thought the violence had actually improved their relationships.

Geology program . . .

(continued from page 1)

enter into \$28,000-per-year jobs in the oil industry upon graduation. "We could triple our salaries if we left teaching," Shroder said.

"We're not here to make money," said Gosnold, assistant professor of geography-geology. He said the academic freedom they enjoy as instructors is too precious to relinquish. "At least for a few more years," he said.

Shroder said that having the program at UNO will provide more students for the graduate program at UNL, which only helps the overall program.

The lack of space for classes to accommodate the new flow of geology majors, lack of storage space, and the need for better equipment are reasons the geology professors say UNO needs a new

Laboratory Science building.

"There is a real need for it," said Gosnold. "They (UNO administration) are really working for us," he said.

UNO will graduate one geology major this December, and according to Gosnold, a few more in the spring. "In two years you'll see 20 per semester," he said.

He added that he has been seeing "two or three people a day" who are interested in the new major.

The requirements for the geology major include 44 credit hours required in the major. Calculus, physics, chemistry and a computer language are also advised, said Shroder.

"It's a rigorous major," Shroder said, but he added that it is something anyone can learn. He said the material, while scientific, is not extremely complex.

United Way

AT WORK

IMPORTANT TESTING NOTICE!

Beginning January 1, 1982, all currently enrolled students will be charged a fee for the English and Math diagnostic placement tests. Fees will be \$3 for English testing and \$2 for Math testing. Register in person at the Testing Center, Eppley 113, after Jan. 4, 1982.

MATH/COMPUTER SCIENCE PLACEMENT EXAMS

Walk-in testing will be conducted for the Math Placement Exam and Computer Science Placement Exam Tuesday evening, January 5, 1982, in Room 101 of the Engineering Building. A \$2 fee will be charged at the door for the 30-minute Math Placement Exam which will start promptly at 6 pm. Students should arrive at 5:30 pm for check-in. There is no charge for the 40-minute Computer Science Exam which will begin at 7 pm. Students should arrive at 6:45 pm for check-in. Testing will be on a first-come, first-served basis as space allows. Results will be available at Registration Jan. 6.

The Computer Science Exam only is also given on a walk-in basis during regular office hours at the Testing Center, Eppley 113.

Reagan taking aim at the people's right to know

As the Reagan administration becomes more and more confident, notching its legislative six-gun with recent victories concerning AWACS, the budget and defense spending, it now turns its sights on the rights of the American people.

Its latest target is the federal Freedom of Information Act (FoIA), which was passed in 1967 at the insistence of journalists, scholars and the American public who demanded the right to know what their government was doing behind the overbroad, vague excuse of "protecting the national interests."

According to Assistant Attorney General Jonathan Rose, the administration has pro-

posed a bill to "fine tune" the FoIA, but this fine tuning seems more along the lines of a major overhaul.

News Media and the Law, a publication of The Reporters Committee for Freedom of the Press, (Oct./Nov. 1981 issue), reports that the Reagan administration's bill would authorize the government to:

— keep secret law enforcement information, such as information regarding illegal burglaries and other criminal law violations committed by federal agencies, including the Federal Bureau of Investigation, Customs, the Drug Enforcement Administration, the Internal Revenue Service, and

similar agencies.

— keep secret many notes and memorandums written or dictated by government officials in their official capacities, including memos which approve of violations by government agencies of federal law or establish agency regulations.

— keep secret information about dangerous foods and drugs, unsafe consumer goods, deceptive advertising of securities and consumer services, pollution or environmental hazards, and other public welfare threats.

— keep secret the details of all lawsuits settled by the government, including settlements accomplished by improper political pressure or conflicts of interest.

— establish a new secrecy exemption for "personal privacy," which may be used to keep secret lists of government contractors and consultants, persons arrested and convicted, government grant recipients such as physicians receiving Medicare payments, and virtually any other name which, if published, would be "an unwarranted invasion of personal privacy."

In addition to these legislative moves to make the government less responsible for its actions, Rose indicated that the administration will propose amendments to the 1947 National Security Act to the House and Senate Intelligence Committees that would exempt all intelligence agencies, including the Central Intelligence Agency, from all FoIA requirements.

Has it been that long since the American press unearthed horror stories of CIA, FBI and other agents storming the homes of American citizens, harassing them, filing false charges against them, planting illegal contraband on them and on their property, and, in other words, criminally framing them for their ideological beliefs?

Has it also been that long ago that Americans have forgotten the acts of treachery perpetrated by these same agencies against foreign governments and peoples, all with the same rights we attribute to ourselves?

The Gateway staff believes that these measures flagrantly violate our right to know what our "representatives" and "civil servants" are doing on our behalf. We think that the more we know of our government's actions the safer we will be both from within and without.

commentary

U.S. will convert atoms for peace to atoms for war

By Nicholas Von Hoffman

Help national defense. Turn on a light. Defend your country, use an electric appliance. Since we Americans are inclined to play the part of doltish lumps when it comes to matters nuclear, it may be months before the government's new policy on nuclear power waste sinks in.

Again, we can thank the guys with the Coke-bottle eye glasses, the nuclear engineers, for the breakthrough which has made our newest nightmare possible. They have figured out a way to take the radioactive fecal matter that commercial nuclear generating plants put out and suck the plutonium out. Plutonium is what they make bombs out of.

We're going to need a lot of the stuff because, after we've made the thousands of warheads for the neutron artillery and bazooka shells, we'll need enough big bomb material for the estimated 14,000 — yes, that's right — 14,000 nuclear pops for General Reagan's MX missile program. Oh, and by the way, even after we've gotten all bomb grade guck out of the commercial reactors' wastes, we'll still be stuck with tons and tons of radioactive uselessness that we'll have to store somewhere.

The great accomplishment here is to wipe out the line dividing commercial from military uses of atomic energy. No more atoms for peace.

That the nuclear energy industry should take this turn is not surprising. It has never lived up to its promises for good and has always exceeded its capacity for evil. Thirty years ago it was sold as the technology that would make electricity "too cheap to meter." The Coke-

bottle-eye guys used to tell us that they could take the energy of "one cup of sea water and convert it into enough electricity to light up Los Angeles for a year." Now they say there is no proof that any American nuclear plant has ever killed a single person. Not yet, but if the local power plant is supplying radioactive ammunition while it's toasting your bread, that is wickedness sufficient unto the day.

(Incidentally, for those interested in learning how typical this latest curve is in the way nuclear energy has always been handled, I recommend "The Nuclear Barons" by Peter Pringle and James Spigelman; Holt, Rinehart and Winston, New York, \$16.95.)

The only way commercial atomic power generation can be pushed on to the power buying public is if its real costs are hidden by taking them out of the monthly electric bill and hiding them in the tax bill. If the local public utility has to pay and pass on the costs of getting rid of its atomic wastes, the monthly bill for a two-room apartment might go to \$300.

What will happen is that the Department of Energy will pick up the costs of reprocessing so that the charges, which will be huge, will not appear on the war, whoops, Defense budget, any more than they do on your monthly utility bill.

All the distinctions are being muddled, the ones separating peaceful from lethal atomic energy, the ones separating war budget from peace budget, and war science from peace science. Thus NASA is sold to us as a civilian research program when it is actually controlled and run by the Air Force for military purposes. In return for this mendacity, we

get an occasional spin-off like Teflon, but that's a steep price to pay to get out of scouring our burnt skillets.

In the same vein is the \$18 plus billion president-commander-in-chief wishes to spend on a new military communications system, most notably the charmingly acronymed ELF (for extremely low frequency) radio network with its preposterous 56-mile antennae.

In a period so grotesque that accurate reportage is a form of satire, this naughty ELF has gotten less attention than it merits. Nevertheless, the publicly stated purpose of ELF is to make it easier for our high command to run the nuclear holocaust in an expeditiously, self-controlled

manner. ELF will make it possible to kill four or five hundred million people over a period of several weeks rather than in one seven-hour spasm of destruction, always provided, of course, we've run our fridges enough to supply them with the plutonium to do it.

Once it was possible to say to the people upset over Three Mile Island, Diablo Canyon or whichever reactor is next door to you, "Look, as long as this whoojie works, nobody's going to get hurt. It's only dangerous if something goes wrong." But it's the bomb you should demonstrate against. It's only safe if it doesn't work. At least the power plant isn't designed to kill people.

'Glass' explores despair

John Melingagio

Dream world... Laura Wingfield (Laura Ross) seems transfixed as she gazes intently at her figurines in "The Glass Menagerie."

son are survivors and the daughter is not, none of the characters' actions are considered wrong," said Wells, a UNO graduate student.

Producing the play in the 104-seat Studio Theater will help to enhance the production's feeling of intimacy, she said. "It will also give the audience more of a feeling that they are really there in the tiny tenement apartment overhearing all the action."

The production, one of the few directed, designed and acted entirely by students, will include a cast with a variety of stage experience.

Kunz was featured in the Rudyard Norton Theater's production of "Twelfth Night" last year, in the Theatre in the Parks series last summer.

Coyle has had a major roles in the Omaha Community Playhouse productions of "Of Mice and Men" and "Mister Roberts," the Firehouse Dinner Theater's "One Flew Over the Cuckoo's Nest," and UNO's fall production of "The Little Foxes."

Also featured in "The Little Foxes," Ross performed in the UNO production of "Hot L Baltimore" and the Theater in the Parks series.

Newcomer Dan Baker will take the part of the gentleman caller that Amanda disastrously tries to match her daughter with.

Michael P. Markey has designed the sets, and Karen Merrill is lighting designer.

Tennessee Williams' acclaimed drama "The Glass Menagerie" will be the final fall semester production by the UNO Dramatic Arts Department.

The poignant story of three frustrated characters will be staged Thursday through Sunday and Dec. 18-19 in the University Studio Theater.

The play is set in a shabby St. Louis tenement in the 1930s and explores the hopes and fears of one of the slum families: Amanda Wingfield (Amy Kunz), a faded Southern belle that desperately holds onto the memories of her youth; Laura (Laura Ross), Amanda's shy and crippled daughter who lives most of her life in the dream world of her collection of glass figurines; and Tom (Patrick Coyle), Amanda's rebellious son who wants to escape from the heavy responsibilities of his family and boring job.

Director Cathy Wells said she selected the play because she is "very interested in Tennessee Williams' works and the essential question he asks in many of his plays: 'What sacrifices are you willing to make to survive?'"

What makes this play interesting was that "although the mother and the

Lynn Rosemann

"Nutcracker" sketch... Jack Schmidt's drawing of the party scene depicts the Omaha Ballet's \$100,000 effort to upgrade the sets, costumes and lighting of the traditional Christmas play.

Enckell recreates 'Nutcracker'

By Lynn Rosemann

It's hard to believe that such a lavish production as "The Nutcracker" ballet could survive on needles and pins. Well, according to Thomas Enckell, director of the Omaha Ballet, costumes for last Christmas' production literally were held together by needles, pins, and whatever else they could find. The sets, and most of the costumes, were six to 10 years old and definitely in need of repair.

This year, however, the production will be held together a bit more securely. With new choreography, sets and costumes, Enckell, Jack Schmidt (set designer) and Karen Lazio (costume designer) have created an entirely new "Nutcracker."

In 1975 Enckell put together the first "Nutcracker" for the Omaha Ballet, borrowing pieces of sets from the Community Playhouse and some costumes from other performing artist groups.

Since the first production, the choreography, sets and costumes have remained basically the same with minor changes here and there. "I never liked it," Enckell said of the sets used for six years, "but we were never able to change it."

The change Enckell wanted from the

beginning was always out of reach until recently. Last spring, the Omaha Ballet received a \$50,000 grant from the Peter Kiewit Foundation. The grant was to be matched by ticket sales. According to Shari Hofschire, president of the Omaha Ballet Board of Directors, if the attendance is as good as it has been for previous productions, it shouldn't be too difficult to match the funds.

It is staggering to think that it would take \$100,000 to recreate the "The Nutcracker." Enckell is the first to admit that "the project creates just as many problems as advantages." He said some of the problems arise in coordinating ticket sales, scheduling performances for school children, creating fresh choreography, designing eight or nine new scenes, and creating and sewing 180 new costumes.

The advantages are that the Omaha Ballet now has a new holiday production which should last for the next 10 to 15 years.

"The Nutcracker" opens this weekend at the Orpheum Theater. The performances will be at 2 and 8 p.m. Friday through Sunday.

Verne's Views

By Verne McClurg
Director of UNO Campus Security

Last Minute Announcements

- Aksarben Shuttlebuses will operate through December 11, 1981 and will not begin again until January 11, 1982. (Thanks Chief Bus Lines for your help this semester)
- Campus Security will be closed to walk-in traffic from December 24, 1981 through January 1, 1982. Normal hours will begin January 2, 1982.
- Students may park in Student Lots **only** during finals week without a valid parking permit.
- Watch the parking lot signs when you come back for the Spring semester. This applies mostly to the lot south of Arts and Science Hall and Y Lot, south of the UNO Library, which will be redesignated for student use after 3:00 P.M.
- Parking Permits will be on sale during Registration in the Ballroom, Milo Bail Student Center.
- Don't forget to pick-up a Carpool — Ridesharing form during Registration. You won't know if there are others with a similar schedule until you try.
- Parking violations **will** be issued the first day of classes, January 11, 1982. Don't listen to any rumors to the contrary.
- Have a nice Christmas and a Happy New Year from the Campus Security Department.

See you next semester with more news you can use to avoid parking problems.

Ebenezer seeks the perfect pair goings on

I watched fascinated as my old buddy lit an expensive cigar with a ten dollar bill. I noticed the diamond stickpin and the \$500 suit. Last time I saw him he was wearing a threadbare coat and was trying to hit me up for a fiver.

"Sixto," I breathed, "what happened?"

"You saw me," he reflected, "ten years ago looking for the road to riches. My uncle Ebenezer, the stockbroker, was keeping me alive with measly handouts, asking me to work night and day on that project. You know that he made a fortune playing the gold-silver ratio. That is, the constantly changing price of gold divided by the price of silver. History shows that when the ratio is high, then silver is cheap relative to gold, so you buy silver, and vice versa.

"Well, Uncle Ebenezer just knew that there was another pair of products which had a much richer potential, two things man uses which are tied together in a changing price relationship.

"He had me check back over the past 80 years on the prices of 20,000 things and pair them up."

"Gadfray" I exclaimed. "What did you pair up, for instance?"

"Well, I tried cows and milk. But there wasn't enough change in the ratio over time. So, I tried cows and hay, and that led into hay and sheep, sheep and wool,

funzies

by Gnome de Plume

wool and men's overcoats, overcoats versus shoes, shoes versus cows. The leather, you know?"

"Looks like you went full circle there."

"Yes, and after years of researching animal versus animal, animal versus vegetable and vegetable versus vegetable products, I saw that the real money had to be in mineral versus mineral. Do you know how many of them there are? Anyway, two months ago Uncle Ebenezer and I were getting very excited. The computers were running full blast, showing we had finally hit pay dirt. Uncle Ebenezer's blood pressure shot way up. But, then, it turned out it was all nonsense. We'd put garbage in the computer, and garbage came out."

"Uncle Ebenezer must have been disappointed."

"No, the old skinflint died happy before he ever found out. Of course, he left me all his money."

Shopping hints help save time, money

One of the most expensive times of the year for any American is Christmas time. Spending becomes the major occupation of many individuals.

Saving money in this time of giving is often difficult as time passes onward toward Christmas, and the frustration of crowds and long lines grows intense.

There are some ways the careful consumer can save himself money, time, and frustration. Careful planning and prudent gift choosing will provide the best gifts at the lowest costs in money and energy.

Often many stores have catalog sales programs. This is the first way to avoid the hassles of shopping in a crowded department store. Usually the larger stores will have their entire line of merchandise available through their catalog.

The prices are as competitive as the items regularly sold over the counter, and often it is easier to pick out sales because the whole catalog can be surveyed without the hurried atmosphere of a shopping center.

Catalogs are also available through specialty stores selling only one line of merchandise. These gifts can usually be sent directly to the recipient, preventing the

problems of gift wrapping and then sending them yourself.

These two methods of home shopping allow the consumer to circumvent the long, frustrating and sometimes unproductive shopping in the stores.

Many people could benefit from this type of shopping, but it must be done early to ensure the items are delivered on time. Often college students will use this method while they are at home during Thanksgiving vacation so they can avoid shopping while at school and the last minute crowds of the stores at Christmas when they return home.

A good way to save both time and money in many stores is to avoid their gift wrapping department. These departments can add long waits to your shopping as well as a hefty bill.

Often the salesclerk can provide you with boxes at the counter for you to place your gifts in.

By shopping during the off hours of the store, many of the crowds can be avoided. Usually the dinner hour and late at night are the best times for this.

Lady Mav B-ballers coast past McPherson

The UNO Lady Mav basketball squad blew McPherson College out of the Fieldhouse Saturday night, 74-54, before a Parents' Night crowd of 200.

Lisa Linthacum catapulted UNO to a 38-24 halftime lead with 12 points and eight rebounds in the first half.

Linthacum only played 25 minutes of the game, finishing with 13 points and a game-high 15 rebounds.

Kirsten Sullivan and Julie Hegemueler also helped the Lady Mavs underneath the boards. Sullivan tallied 12 points and grabbed four rebounds, while Hegemueler had 12 points and six rebounds.

"Lisa and Kirsten did a good job for us," said coach Cherri Mankenberg. "It was a good game for us. We got a chance to play everybody. McPherson wasn't Oklahoma Baptist, but they had some good people."

UNO lost to Baptist in the finals of the Lady Mav Pepsi Classic Nov. 28, 53-52.

Both UNO and McPherson had 24 turnovers. Part of the reason for the McPherson turnovers was the Lady Mavs' full-court press and 3-2 zone defense. Neither had been used by UNO before.

The full-court press was especially effective. In the first five minutes of play, the Lady Mavs stole the ball four times from the Lady Red.

McPherson was led by Sue Sundahl with 17 points.

Mankenberg said she plans to use the press more often.

"With the depth we have at guard, we can do it," she said.

Mary Beaver also had a good night for UNO, hitting three of six field goal attempts.

Tonight the Lady Mavs play NCAA Division I Central Missouri State at 7:30 p.m. at the Fieldhouse. The Jennies are, including a 71-67 win over Iowa State.

Their leading scorer is Carla Eades, a 5-10 sophomore forward who averages 21 points and nine rebounds per game.

"I guess she can do everything," said Mankenberg. Two other CMS players, forward Sara Figg (5-11) and center Pat Seger (6-feet) were teammates of Linthacum at Moberly Junior College last year. Moberly finished second in the nation last season.

UNO cagers bounce back by pummeling Coe

By Mark Martens

How does the UNO basketball team spell relief? C-O-E.

The Mavericks, coming off two successive losses to Division I schools Iowa and Creighton, stormed to a 87-57 victory over Coe College of Cedar Falls, Iowa, Friday night at the Fieldhouse.

Senior forward Tony Cunningham came off the bench to pour in 17 points and grab rebounds to lead UNO, and was one of five Mavericks scoring in double figures.

It was the first time this season that sophomore Dean Thompson did not lead the team in scoring. Thompson saw limited action, finishing the game with 10 points.

Freshman Terry Sodawasser hit six of nine shots and hauled in 10 rebounds, while Vernon Manning and Rick Keel had 10 and 12 points, respectively.

UNO which raised its record to 3-2, controlled the game from the opening tip-off and enjoyed a 46-26 halftime advantage over the 0-4 Hawks.

The Mavs looked different from the team that lost 68-57 to Creighton.

In the Creighton game, UNO shot only 35.9 percent from the field, and turned the ball over 21 times, compared to 54.1 percent shooting against Coe and a season-low 11 turnovers.

Head coach Bob Hanson said the Mavericks "played with organization and executed the offense extremely well." Hanson was especially pleased with the way the Mavs rebounded, which was a problem against Creighton.

"We really played unselfishly and were well-disciplined," Hanson said. "We rebounded well and kept the turnovers down. We couldn't dwell on the loss to Creighton. I think we did a real good job tonight."

One of the few bright spots for UNO in the Creighton game came during the second half. Sophomore guard Rickey Suggs made his first appearance of the season and scored 13 points and had five rebounds. Suggs has been hampered by an ankle injury all season. He had

four points and two rebounds against Coe.

The Mavs opened up an early 32-14 lead in the first half against Coe with Cunningham and Keel combining for 11 points in the surge. The Mavericks continued to use their size and strength advantage inside during the second half, and used everyone on the roster at one time or the other.

The Mavs' man-to-man defense was "meant to keep us more alert," according to Hanson, and also caused Coe to turn the ball over on several occasions.

The Mavericks will take on Grand View College Friday and Doane College Saturday at the Fieldhouse. Both games start at 8 p.m.

UNO wins at Buena Vista, Northwest Missouri

Wrestlers return home with victories, injuries

The UNO wrestling team had a productive week last week despite operating without heavyweight Mark Rigatuso.

The Mavericks defeated Northwest Missouri State Dec. 1, 29-9, and Buena Vista College 22-18 on Friday. Six UNO wrestlers also placed in the North Iowa Invitational Saturday.

Rigatuso hasn't seen any action since he hurt his shoulder Nov. 19 against UNL. His injury forced Steve Cooley, who normally wrestles at 190, to move to the heavyweight slot. Rick Heckendorn, who wrestles at 177 had to move up to 190, and Mike Braun, who wrestles at 167, moved up to 177.

Three Mavs wrestlers were hurt at Buena Vista, including: Tim Kalinski, 134; Dan Georing, 126, back injury; and Rick Heckendorn, 177, knee injury. Georing and Heckendorn are expected back for the home dual against South Dakota State at the Fieldhouse at 7 p.m. tomorrow.

UNO assistant coach Royce Oliver, competed for the UNO wrestling club, in the 167-pound weight class at Northern Iowa.

Top teams

The tourney included teams from Iowa and Wisconsin Universities, Ohio State University and Central Oklahoma.

Oliver defeated Jay Lleullyn of Northern Iowa 13-5 in the championship match. Oliver posted a 5-0 record in the daylong meet.

No team scores were kept in the tournament.

Ryan Kaufman, UNO's All-American at 142, finished third, losing 7-5 to Lenny Zalesky of the University of Iowa. Zalesky is ranked No. 1 in NCAA Division I.

Domination

"Ryan dominated everybody else" in the tournament, said head coach Mike Denney.

Ted Husar took fourth in the tourney at 150. He was pinned by Mark Trizzino of Iowa in 2:17 in the semifinals. Trizzino graduated last year as the No. 2 wrestler

Husar beat Larry Schmidt of the University of Wisconsin 9-7 in the consolation round. "Ted wrestled really well," said Denney.

Wilcox wins

Mike Braun took fourth place at 177. In the semifinals he lost to Ed Gormally of Northern Iowa 9-5, but beat Northern Iowa's Mark Shultz 7-3 in the consolation round.

Greg Wilcox, a redshirt, took fourth, losing to Pete Bush of Iowa in the semifinals of 9-5, but defeating Jeff Kopecky of Wisconsin 8-5.

Bill Colgate finished sixth, losing to Mike Hallman of Northern Iowa in the consolation round, 7-2.

Records for other Mav wrestlers at Northern Iowa: Phil Pisasale, 118 pounds, 3-2; Duke Daniels, 118, 0-2; David Washington, 118, 3-2; Dan Irving, 126, 1-2; Brian Foote, 126, 0-2; Mike Smith, 142, 2-2; Curt Ramsey, 150, 1-2; Bill Wofford, 158, 2-2; Jeff Spain, 158, 1-2; Jeff Finely, 158, 1-2; Russ Pierce, 167, 3-2; Doug Hassel, 167, 3-2; Paul Jonas, 167, 2-2; John Warren, 177, 2-2; Steve Grimit, Heavyweight, 2-2; Jeff Roggasch, Heavyweight, 1-2.

Results at Buena Vista: 118, Curtis Cawley, Buena Vista, dec. Phil Pisasale, UNO, 9-6; 126, Jim Cornich, Buena Vista, dec. Dan Georing, UNO, 12-11; 134, Ron Swanson, Buena Vista, dec. Brian Foote, UNO, 12-1; 142, Ryan Kaufman, UNO, pinned Kevin Gribben, Buena Vista, in 1:19; 150, Curt Ramsey, UNO, dec. John Peters, Buena Vista, 18-4; 158, Bill Wofford, UNO, dec. Jon Beuter, Buena Vista, 4-3; 167 Russ Pierce, UNO, dec. Jim Lengh, Buena Vista, 5-4; 177, Mike Braun, UNO, dec. Brian Bedhard, Buena Vista, 10-4; 190, John Brown, Buena Vista, tied Rick Heckendorn, UNO, 8-8; Heavyweight, Charlie Williams, Buena Vista, pinned Steve Cooley, UNO, in 3:37.

Results at Northwest Missouri State: 118, Phil Pisasale, UNO, dec. Carey Miles, NWMS, 6-0; 126, Dan

Georing, UNO, dec. Kirk Strand, NWMS, 4-3; 134, Andy Marty, NWMS, pinned Brian Foote, UNO, in 2:39; 142, Ryan Kaufman, UNO, dec. Dale Corzier, NWMS, 28-6; 150, Curt Ramsey, UNO, dec. Tony Brugmeier, NWMS, 12-5; 158, Bill Wofford, UNO, dec. Bob Glasgow,

NWMS, 6-4; 167, Paul Bergmeier, NWMS, dec. Russ Pierce, UNO, 12-5; 177, Mike Braun, UNO, dec. Scott Williams, NWMS, 17-4; 190, Rick Heckendorn, UNO, dec. Scott Lane, NWMS, 13-2; Heavyweight, Steve Cooley, dec. Matt Mienert, NWMS, 9-2.

Dale captures two events, leads Lady Mav runners

The Lady Mav track team won eight events at the South Dakota Invitational track and field meet at Vermillion Saturday.

Regina Dale led UNO by winning twice, posting a 9.4 time in the 60-meter hurdles and a 17-11½ mark in the long jump. She won the long jump by 15 inches.

"She did pretty good for somebody who isn't in shape," said coach Bob Condon. "Nobody is in shape. Normally we go to our first meet with two or three weeks of training."

Six Lady Mavs walked away with first place positions.

Condon said freshman Becky Wilson "is looking real good." She was second behind fellow Lady Mav Kristi Bundy in the 60-yard dash. Tracy Floyd had a time of 8.3 yard dash. Bundy captured first with a time of 7.4. Tracy Floyd had a time of 8.3 but didn't qualify.

Wilson won the 400 meters with a time of 1:04.1.

The 4x100 relay was a weak spot for UNO, as they finished second, with a time of 53.8.

Although the Lady Mavs had no competition in the high jump, Condon said he felt they had a strong performance

anyway.

Beth Kerschinske jumped 5-4. Her best jump last season was 5-6. Condon said her jump Saturday was "good for this early in the year."

Sue Scholting matched her best jump last year with a 5-foot leap. Julie Gullett won the high jump for UNO with a 5-4.

Carolyn Buchert won the 800 meters with a time of 2:41.2. She was the only Lady Mav running in the event.

Sandy Crumwine, who wasn't expected to compete after undergoing knee surgery two and one-half weeks ago, finished seventh in the 200 meters with a time of 30.1. Condon said she was within five tenths of a second behind the No. 6 finisher.

"She's going to be real successful here at UNO," said Condon. "She's not as gifted as some, but she loves to run."

Sue Brayton won the shot put with 36-foot-7-inch toss.

UNO's next meet, a dual against South Dakota at Vermillion, is Jan. 23.

"It's going to be interesting," said Condon.

Norris — Mickunas and 'Exposition' will give a short musical presentation on the Baha'i Faith at:

Place: Milo Bail Student Center UNO
December 9, 7 p.m., in the "Dining" Room A & B

It teaches:

the Oneness of God

the Oneness of Religion

and

the Oneness of Humanity

B) The 1927-28 team.
C) The 1960-61 team.
D) The 1958-60 team.

Slobodnik sets record

The UNO track team won eight events Saturday at the South Dakota Invitational track and field meet at Vermillion.

Tracy Slobodnik notched a stadium record 15-6 pole vault while Graylin Butler won the 60-yard dash and the 200-meter dash. His times were 6.4 and 32.9, respectively.

Dan Bice won the high jump with a 6-8 leap. Curt Huston captured another title for UNO by winning the 1,000-meter run in 2:40.

Dave Buckley won the 60-meter hurdles in 8.4. Jim Hall, UNO's All-American cross country runner, won the 1,500 meters in 4:09.4. UNO also won the 4x1000 relay with a time of 3:58.8.

BENCHWARMER'S SPORTS TRIVIA

In what events did Eric Heiden win his 5 Olympic gold medals at Lake Placid?
